Full Stack Developer

Professional Full-Stack Developer with nearly **1 year of experience**, specializing in **React, Django, TypeScript, and SQL**. Seeking a **challenging role** to leverage my expertise in web development, backend integration, team collaboration, and project management. Proficient in **JavaScript, Python, Tailwind CSS, PostgreSQL, and RESTful APIs**.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, TypeScript, HTML5, CSS3, SQL
Frontend: React, Next.js, Redux Toolkit, Zustand, Tailwind CSS, Bootstrap, Shaden UI, Framer Motion
Backend: Django, Django REST framework, RESTful APIs, WebSock (Socket.IO), JWT Authentication
Databases: PostgreSQL, MySQL, SQLite
APIs & Integrations: Google Auth, Cloudinary
Tools: Git, GitHub, Postman, VS Code

Work Experience

Upwork **Mar 2025 - Present**
Freelance Developer, Bahawalpur

- Developed 5+ responsive web applications using React, JavaScript, and Tailwind CSS with RESTful API integration.
- Implemented pixel-perfect UI designs from Figma, reducing page load time by 40% and improving satisfaction by 25%

PROJECTS

MediConnect - Book Doctor Appointments, [Link](#) **Dec 2025 - Jan 2026**

- Architected a **full-stack healthcare platform** supporting secure appointment workflows and role-based access for patients and providers, improving simulated end-to-end booking **efficiency by 50%**
- Implemented Django-based authentication and **GoogleOAuth**, reducing login friction and enabling secure session management across multiple user roles
- Delivered a mobile-first Tailwind CSS interface and production deployment on PythonAnywhere, achieving consistent cross-device responsiveness and sub-2s average page load times

Cityfix - Community Issue Reporting Platform, [Link](#) **Nov 2025 - Dec 2025**

- Developed a full-stack civic tech platform supporting real-time crowd-sourced issue tracking and a community upvote prioritization system
- Implemented secure role-based dashboards and admin panels, streamlining user session management and municipal task workflows
- Delivered a mobile-first interface featuring an interactive live issue map, optimizing spatial queries and asset loading to achieve seamless cross-device responsiveness.

Finect, [Link](#) **Mar 2025 - Apr 2025**

- Delivered a client-focused financial platform with a modular React architecture that accelerated feature iteration and **reduced UI development time by 25%**
- Engineered responsive Tailwind CSS layouts and interactive components to enhance usability and increase user engagement during client testing
- Collaborated directly with stakeholders to translate business requirements into production-ready features within tight delivery timelines

EDUCATION

The Islamia University of Bahawalpur, Pakistan, Bachelor's in Computer Science, Jan 2023 - Present
